

The Entrepreneurial Lab

This is the place where you can let your technical dreams come true. If you have a groundbreaking idea for a new innovation, you can initiate your project and take it from concept to reality with the support of a vibrant community of like-minded innovators.

Room to play

At the Entrepreneurial Lab, we believe in the power of multidisciplinary collaboration and the freedom to explore. Here, diverse teams bringing together various skills to tackle the multifaceted challenges of today. It's where individual competencies unite to solve complex problems, driving innovative solutions through collective expertise.

Through hands-on, experienced-based learning, we create an environment where experimentation is encouraged, failures are embraced as opportunities for growth, and breakthroughs are celebrated.

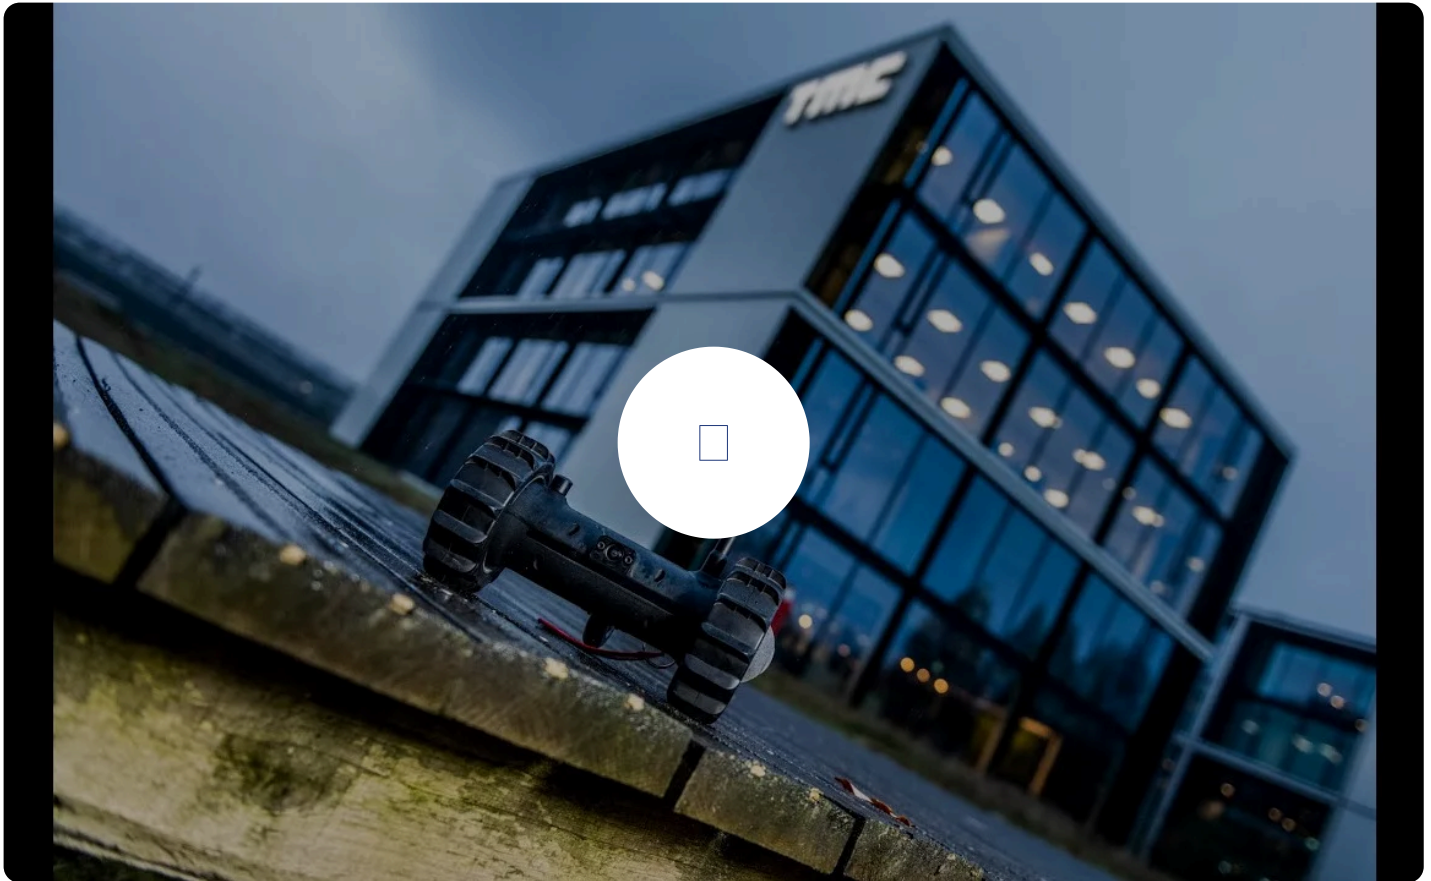

Whether it's pioneering technology or disruptive healthcare solutions, the Entrepreneurial Lab provides the space, resources, and collaborative spirit to turn your vision into a successful venture.

How it works

Sounds promising, doesn't it? But how exactly does the Entrepreneurial Lab operate?

- > Our employeneurs work on their own innovation if they desire, but they do this alongside their client project.
- > TMC supports with a physical lab and possibly even with financial resources.
- > The ownership of the innovation remains of our employeneurs; TMC has no interest in it.

> The first spin-offs have already been rolled out, that is what we call true employeneurship!

Collaboration with our specialists

Next to our own projects, we offer support to external parties seeking solutions for specific project challenges. Whether it's a technical issue or a strategic challenge, we offer a platform where we will dive into your project. By engaging with us, you gain access to a pool of top talent, our Employeneurs, who eagerly contribute their expertise and creativity to address your needs. Let's unite our efforts and realize your project's goals by accessing the combined expertise of our Entrepreneurial Lab's diverse talents and specialized knowledge.

Internships

If you are an entrepreneurial student, excited to make an impact in a real-world project, the Entrepreneurial Lab might be just the place for you. We offer an environment where you can directly contribute by working on one of the projects, or conducting a research for one of them. Our experienced professionals are keen to guide you along your way as you help shape a better tomorrow.

Let's get in touch!

Reach out for opportunities, collaborations, or questions. We're here to connect.
